

**telegate offers yellow pages for the wrist:
klickTel.de-App for the new Apple watch**

Munich / Planegg, April 8, 2015 – telegate AG has now developed a free of charge yellow page app for the new Apple watch. Consumers can then search with their watch and telegate's klickTel app for suitable service providers, restaurants, petrol stations or cash machines. "We want to be the leader in digital advertising in Germany for small and medium-sized enterprises. Therefore, it goes without saying that we also offer our customers a presence on all mobile devices", said Franz Peter Weber, spokesman of the management board.

The klickTel-App is the most-used yellow page app since years. It perfectly matches with the Apple watch since it is easy to handle and shows quick and reliable search requests in the vicinity. The quick search user interface uses tiles to ensure good readability without limiting the app's comprehensive functionalities. „Consumers love our klickTel app since the very beginning. For business owners, it is therefore an excellent high-coverage possibility to present their offer to potential customers. Now, even at the wrist", said Franz Peter Weber.

telegate AG is the second-largest German service provider for regional advertising and directory inquiries. Via the www.11880.com and www.klicktel.de online directories, the corresponding smart phone and iPad apps as well as klicktel's software products, consumers can access contact details for private subscribers, business information and regional news. More than one million users in Germany access these online and mobile services each day, making them effective advertising platforms for businesses. In addition to prominently placed entries in the digital directories, telegate offers small and medium-sized enterprises numerous opportunities for marketing their products and services on the Internet via its telegate MEDIA subsidiary. Following the liberalisation of the telecommunications market at the end of the 1990s, telegate rapidly became Germany's second-largest provider of directory assistance services through the country's best known telephone number 11 88 0*. With a market share of nearly 40 per cent, it is now the leading alternative provider of such services. telegate AG has around 1,000 employees at eight sites in Germany. The company's share is listed in the Prime Standard of the Frankfurt Stock Exchange.

* EUR 1.99 per minute from a Deutsche Telekom landline. Other prices may apply to calls made from mobile networks. Text message inquiries are just EUR 1.99 (Vodafone D2 portion: EUR 0.12) in Germany.
