3. Other useful information:

Structure chart

Fill in information

In case of a correction of a notification which has not been published by the issuer please tick the box "Notification of Major Holdings".

Reason for notification (2.)

Relevant are the reasons for triggering the threshold(s). Example for multiple reasons: Exercise of financial instruments (= other reason) which at the same time led to crossing above a threshold of voting rights (= acquisition/disposal of shares with voting rights).

Examples for "other reason": Notifications according to Sec. 33 para. 2 WpHG, entering or termination of an acting in concert, proxy or its termination, voluntary group notification with triggered threshold on subsidiary level, exercise or expiration of financial instruments.

Details of person subject to the notification obligation (3.)

In case of identical notifications, e.g. community of heirs or multiple controlling parent undertakings ("Mehrmütterherrschaft"), a single notifications can be disclosed.

In case of natural persons: First name, family name, date of birth, but no reference to domicile or state.

In case of entities: City of registered office refers to the City stated in the register according to the applicable company law.

Names of shareholder(s) (4.)

Relevant are only shareholders from which voting rights are attributed to the person under 3. according to Sec. 34 para. 1 and 2 WpHG.

Date on which threshold was crossed or reached (5.)

For notifications according to Sec. 33 para. 2 WpHG please enter the relevant date of holding.

Total positions (6.)

"Total number of voting rights of issuer": Please enter the total number of voting rights which has been used for calculation of the voting-right proportions (%).

"Previous notification": If there has not been a previous notification please enter „n/a“.

Notified details of the resulting situation (7.)Voting rights (7.a)

The ISIN is mandatory. More than one ISIN apply only if more than one class of shares exist.

Instruments (7.b)

Examples for 7.b.1: Call-options, futures/forwards etc.

Examples for 7.b.2: Cash settled call-option, swaps, cfd's etc.

Multiple instruments of the same type but with different periods of validity can be grouped by referring to the outmost relevant dates.

Information in relation to the person subject to the notification obligation (8.)

Always the full chain has to be provided, i.e. including the person under 3. and by starting with the ultimate parent undertaking, where applicable by an annex. This also applies in case that only a subsidiary undertaking triggers a threshold and thus discloses a notification (if its parent undertaking has not triggered a threshold at the same time it is not subject to the notification obligation). In case of multiple chains the chains have to be presented chain by chain leaving a row free between the different chains (e.g.: A, B, C, free row, A, B, D, free row etc.).

Whereas the names of the different companies have to be provided in any case, the percentages of their holdings have only to be provided if these reach or exceed the lowest applicable threshold (3% or 5%).

However, this rule does not apply in cases where voting rights are attributed only due to the fact of being a parent undertaking (Sec. 34 and Sec. 38 WpHG), i.e. in these cases the percentages of their holdings shall not be provided. The attribution of voting rights in these cases is already made transparent by providing the order of chain of controlled undertakings.

Other useful information (10.)

Applies only in specific cases. Example: Information that there is no aggregation of voting rights and instruments as the instruments refer to shares disclosed as attributed voting rights. Information has to be brief and clear.
